## Web Development & Design

This letter is to express my interest in the job posted on your website.

After many years working in the field as a freelance, self taught web developer and designer, I decided to obtain my professional certification from the W3C as a front-end web developer. My freelance work creating websites using open source frameworks like Joomla, Wordpress, Drupal and Magento also allowed me the freedom to actively participate in raising my three boys.

Now, that my children are nearly grown and creating experiences of their own, I wish to take my career to the next level and create state-of-the-art, user-friendly websites and applications as part of a team. Working alone is an unbelievable adventure and I have learned a lot, but it also makes clear what the advantages would be to have a team of intelligent, motivated colleagues. I am confident I would be an excellent addition to your organization.

I have a B.S. degree in Chemical Engineering, but I have found that web and design are more suited to my skills. In addition to my knowledge base, I love to learn about new technologies. It is very important to me to stay up-to-date on industry trends and advancements. I am eager to enter this new phase of my career and my life, which will put me ahead of the curve and allow me to deliver exceptional work.

I've attached a copy of my resume detailing my education and experience.

Sincerely yours,

*Tomás Pérez*

Tomás Pérez

Objective

I am looking for a position in front-end web development with web technologies such as Angularjs, Reactjs, JQuery and other libraries and frameworks. After obtaining my professional certification from the World Wide Web Consortium, I am eager to work in the field with a team of like minded professionals and bring value to the team.

Experience

- 2010 - present   **Owner - Web Locomotion LLC.**  
I have been working creating websites with open source content management systems like Joomla, Wordpress, Drupal and Magento. I am familiar with the XAMP stack and web design in general using Adobe products (Photoshop, Illustrator, Acrobat, etc).
- 2002 - present   **Freelance IT and Web Design**  
Since I have been a staty-at-home dad, I have been working as a freelance doing IT consulting and web development in general. The exponential growth of the web made me realize the opportunity that web technologies could offer.
- 1998 - 2002   **Network Engineer.**  
2000 - 2002 TRG Networking, Baltimore, MD  
1998 - 2000 Management Works, Baltimore, MD

Education

- 2018 - edx.org  
**W3C   Certified Professional Front-End Web Developer**  
CSS Basics  
HTML5 and CSS Fundamentals  
HTML5 Coding Essentials and Best Practices  
Javascript Introduction  
HTML5 Apps and Games
- 2018 - edx.org  
**Microsoft   AngularJS: Framework Fundamentals**
- 2017 - Kennesaw State University  
**CS5000   Foundations of Programming in Java**  
**CS5020   Computer Architecture and OSs**
- 2016 - edx.org  
**MITx   Introduction to CS and Programming with Python**
- 1993 - Universidad Polit cnica de Catalunya (Polytechnic University of Catalonia)  
**UPC   Ingeniero T cnico Industrial Qu mico (Chemical Engineering)**  
Equivalent to Level 6 EQF (European Qualification Framework)  
Equivalent to Bachelor of Science Degree in the USA
